

NON-CHEMICAL PROGRAM

RSI Ecology Cell™

When chemicals are not an option, a proven non-chemical treatment program.

IF EITHER OF THESE SOUNDS LIKE YOU

“I am legally restricted from using or discharging chemicals.”

“I want a safer, non-chemical alternative.”

RSI has your solution.

YOUR PROGRAM IS BUILT FROM

- ✓ Proprietary Ecology Cell™ anodes
- ✓ UV disinfection — destroys bacteria without chemicals
- ✓ Remote conductivity monitoring and control
- ✓ Side-stream High Efficiency Filtration
- ✓ Cooling Tower Balls™ — controls algae by blocking sunlight
- ✓ Scheduled mechanical cleaning

Every program is built to your exact needs, to keep the system clean, compliant and efficient. To size a free survey we need your tower size or tonnage, your water source, and your primary challenges — scale, algae, slime, bacteria or dirt and solids.
