

Make Your Life Easier™

WATER TREATMENT SINCE 1978

RSI HIGH EFFICIENCY FILTER

Keep solids out of the performance equation.

A considered filtration choice for the water circulating through valuable equipment.

Concept imagery; not a photograph of RSI equipment or a customer site.

Straightforward installation. Serious hardware.

RSI pairs a GRUNDFOS pump with an EATON stainless-steel bag-filter housing in a skid-mounted system. The side-stream installation uses two pipes, with no backwash or floor-drain requirement.

Selectable filtration

RSI lists bags from 50 down to 0.5 microns.

Flexible capacity

Published models at 100, 150 and 200 GPM.

Engineering support

CAD, submittals and specification documents are available.
