

Make Your Life Easier™
WATER TREATMENT SINCE 1978

RSI HIGH EFFICIENCY FILTER

A stronger specification starts with better questions.

Connect the filter selection to the water, flow and maintenance requirements.

Concept imagery; not a photograph of RSI equipment or a customer site.

THE DECISION CONVERSATION

CONSIDERATION	APPLICATION
Particles	What suspended solids and particle sizes need to be addressed?
Hydraulics	What flow, pressure and connections suit the installation?
Operation	Which bag rating and service access fit the application?
Documentation	Request the CAD drawings, submittals and specifications from RSI.

Use a site-specific filtration quote to turn the requirements into a reviewable equipment selection.
