

WHY WATER TREATMENT?

Big investment. Precise care.

Your water program deserves the same attention as the equipment it serves.

Concept imagery • Illustrative, not RSI equipment or a customer site.

FOUR PRIORITIES. ONE COORDINATED PROGRAM.

RSI matches recommendations to your equipment and incoming water, with month-to-month service that earns the relationship.

01**CORROSION**

Metallurgy + chemistry

02**SCALE**

Mineral concentration

03**BACTERIA**

Microbial control

04**ALGAE**

Light exposure

The mix of controls depends on the equipment and operating conditions.

Industry context: DOE side-stream filtration; CDC cooling-tower guidance.

Put your equipment first.

Talk to RSI about your water-treatment priorities.
