

CHEMISTRY & QUALITY CONTROL

RSI Chemical Programs

The best product that meets the treatment goal, with the least environmental impact.

OUR PROMISE ON ANY ADDITIVE

If your system requires a chemical additive, you get the best product for the goal.

And the least amount of negative impact on the environment.

Both, or it is not an RSI program.

WHAT STANDS BEHIND IT

- ✓ The best team of chemists and quality control in the business
- ✓ Many RSI products are food-grade
- ✓ Recommendations made from your equipment and your water
- ✓ Independent testing proves our products outperform the competition
- ✓ The RSI proprietary scale and corrosion inhibitor is certified for drinking water
- ✓ Service on a month-to-month basis

RSI looks at each customer's specific equipment and incoming water quality, and makes an exact recommendation from those findings. Please contact RSI to have a free evaluation conducted on your system.

Free Evaluation of Your System

We will tell you what your water actually needs — including when the answer is less chemistry, not more.
